It is the client's responsibility to provide the band with playlists on an iPod (or similar device) while the band is on break or for special dances. Please name the playlists "Special Dances", "Set Break One" and "Set Break Two". The "Special Dances" playlist should have any songs that the band will NOT be playing, such as ones listed above including Introducing the Bridal Party. Please put them in the order in which they will occur during the event. The more organized you are the more time you will have to party!
